## INSURANCE AGREEMENT

Dear Patient,

We have prepared this letter to help you better understand the complexities of dental insurance. We realize how confusing it can be. To begin, we would like to highlight a misconception--dental insurance is not designed to pay for all dental care. Most contracts have limits and/or various degrees of co-payment. However, at Rother Dental we are committed to working with you and your insurance company in order to provide the best and most affordable treatment.

All levels of payment by insurance companies, including allowed fees and UCR's (usual and customary rates), are governed by the premiums they are paid. They do not reflect actual dental costs. Our fees are based upon a combination of our costs, our time, and our constant dedication to supplying our patients with the highest quality dental care. The treatment recommended by our office is never based on the restraints of your insurance contract.

It should be understood that the dental insurance contract is between the insurance company and the patient, whom bears the ultimate financial responsibility. All estimated co-pays for treatment performed at our office is due at the time of service.

We hope this information has been helpful. Please take the time to review your insurance contract thoroughly so we may best serve you. As always, you may feel free to ask any member of our staff for clarification on services, billing, and insurance.
